I'm a web developer, excited to learn more about the various tech stacks available. As web development technology has rapidly evolved over time, I, as a fast learner and self-learner, am passionate about embracing new advancements. I am always eager to expand my skillset by creating diverse projects using cutting-edge technologies.

EXPERIENCE

PT. Baracipta Esa Engineering

Aug 2022 – Dec 2022

Fullstack Developer Intern

- Built learning management system platform (stufast.id) using Codeigniter 4
- Actively participate in the development team's efforts to create an online learning platform system from scratch.
- Implemented UI/UX mockups to static pages (e.g., cart & checkout, course detail, etc.)
- Integrated APIs to admin page for course and profile management
- Designed and implemented HTML emails (e.g., email verification, password reset, invoice)

Zenius
