INTRODUCTION

I'm a web development enthusiast, excited to learn more about the various tech stacks available. While front-end development, particularly React, piques my interest the most, I'm always open to exploring other technologies. As web development technology has rapidly evolved over time, I, as a fast learner and self-learner, am passionate about embracing new advancements. I am always eager to expand my skillset by creating diverse projects using cutting-edge technologies.

WORK EXPERIENCE

PT. Baracipta Esa Engineering   Aug 2022 – Dec 2022

Fullstack Developer Intern

- Builded learning management system platform (stufast.id)
- Implemented UI/UX mockups to static pages (e.g., cart & checkout, course detail, etc.)
